**Budha dasa: 07-02-1983 to 06-09-1987 Age: 0 yrs. to 4y6m:** This was a good period for the native. Good health and lot of importance is given to her. She is very intelligent girl. This has given a good start in life. She was brought up with all religious or morality. There was good incidents with father and grandfather. Since budha is also the 3rd sub lord and also star lord of the 2nd cusp, there were some incidents like sudden fainting, colic pains, leg pains and cold effects and at times, it was doubted whether the child would survive. Since budha is in the 12th in drekkana chart, there were no birth of brothers or sisters during this time. The relationship with parents was good but there was some problem to the father of the native. Either he was transferred to a far away place or very busy. She did not enjoy much of happiness with her father during this dasa.

**Ketu Dasa: 06-09-1987 to 06-09-1994 Age: 4y6m to 11y6m:** In any chart wherever ketu is posited, the general inclination is lack of interest. It is the period of introspection. The native will start questioning the basic values. It is the time of searching for the truth. At the tender age, the native may not be able to comprehend her mentality, but there is an undercurrent of some search. In this particular chart ketu does not own any cusps and fortunately posited in his own star, moola. This gives the child a religious mentality. There were problems related to mother like mother's ill health that reflected on the native's progress and mentality. Somehow, the child felt, that it was not the environment she desired. She was subjected to insect bites, smallpox, chickenpox and the like. Ketu represents guru, budha and chandra as well as sani in this chart. Good education, happiness and also birth of younger sisters/brothers were there. Success in basic education and also quick thinking was there. Yet, due to sani's aspect, suddenly she will withdraw and fall silent. She was somehow detached and dreamy also. Though there were no external factors, she will suddenly feel alone and depressed. Strange dreams and fear of darkness was too much. Since ketu is in the 6th the dwadasamsha chart, the parents were having a terrible time with diseases and loans. To sum it all, there were no important incidents during this period.

**Shukra Dasa: 06-09-1994 to 06-09-2014 Age: 11y6m to 31y6m:** This is the dasa that is going on now. Sukra is the sub lord of the 6th in the 6th itself though not in own sign. Also, sukra is the benefic 2nd and 9th lord. Diseases related to enzymes, hormones and such body fluids are seen here. Sukra is not combust and as

such there is considerable amount of wealth during this period. The period gives familial expansion by marriage, increase of monthly income, a job (service, so to say), religious mentality (live and let live) though she is not much of a religious person. She is a worldly person. Greed, jealousy, dreams, gold, pleasure and all the associated with sukra are there. During the previous dasa, she was a skeleton like lifeless person. She becomes a beautiful girl during this sukra dasa. Also, she develops confidence and artistic talents. As sukra is the 9th lord, the adverse effects like greed, jealousy etc., are very less. Sukra is exalted in the 2nd house in the navamsha chart which shows a good marriage. She gets a good job. Birth of children are not seen during this dasa. Education is so so only. The relationship with brothers/sisters is excellent. As sukra is in the 8th in astamsha chart, there will be some challenges to the longevity during this dasa in the form of ill health or accidents and as the longevity is promised in the chart, no untoward events happen. Overall, the native gauges this dasa as a more satisfactory period. There are no problems to the parents or from the parents to the native. The amount kept in her name will multiply to provide good comfort to the native. These are the results of sukra dasa.

Shukra Bhukti( 06-09-1994 to 06-01-1998 Age:11y6m to 14y10m) was own bhukti of the dasa lord. So, all the above results happen in small measure during this period. Though there may not be much material effect, she will come to know where her life is heading. Many of the results described above will come to happen in dreams so that the ground is prepared for the days to come. Surya Bhukti (06-01-1998 to 06-01-1999 Age:14y10m to 15y10m) gave some health problems and also some idea of the profession she likes. Chandra Bhukti (06-01-1999 to 06-09-2000 Age:15y10m to 17y6m) was more good period which was full of success and excellent development. She enjoyed the student life to the fullest limits and she was more responsive to her parents. Mangala Bhukti(06-09-2000 to 06-11-2001 Age:17y6m to 18y8m) was the period of obstacles, opposition. She had to concentrate on studies more. Since it is the conjoined period of 2nd and 7th significators, there were accidents involving vehicles, fall from a height (like tree) or injury from furniture. Rahu Bhukti (06-11-2001 to 05-11-2004 Age: 18y8m to 21y8m) that followed caused unrest related to profession, prestige and social standing of the person. There were disappointments and also there was good progress in the job. The job started with a tune of 'I deserve and want better than this'. Guru Bhukti (05-11-2004 to 07-07-2007 Age:21y8m to 24y5m) was a period of change in job, environment and also happiness, good education and also a possible marriage or an attempt (longing) to get married.

**Shani Bhukti:07-07-2007 to 06-09-2010 Age:24y5m to 27y6m:** This is the period of reversals. The money element is hard to come by. There is no expansion like marriage, job development during this period. This period slows down the events during the bhukti and thereby causes frustration. There is good health and good prestige. The time is good for investments as sani is the lagna, 5th and 11th lord. A possibility of settlement of marriage is also seen as sani in the 5th and 7th sub lord. It is the marriage where native is happy with the boy, though he is not as good as the native to look at. The native displays much patience and wisdom. So far in sukra dasa, it was only the material knowledge but now she gets to know the philosophical point of view as sani is posited in the star, vishakha. Such a sani will give good amount of wealth but there are restrictions attached to it. She can not enjoy the life to the full measure. It is just like the ATM which gives only 20,000 rupees whereas you have 20 lakhs. She will also become sharp tongued, which was unusual so far. She wants to be alone, makes mistakes in public speeches and also suffers severe colic pains and head aches. There is stability in the hobbies she has chosen i.e. she will not drift from one to other. The native gets a good job, though it is in service sector. 6th lord in 2nd exalted indicates good income for the qualifications obtained. It also shows that the native is on loans and considerable amount of monthly income will go for clearing the loans. Also, she has tendency to purchase the things required on credit cards and loans. The educational progress is

below normal. There are no dangers to life and the profits, success are slow to come by during this time.

Sani is the lagna lord in the navamsha chart who is in own sign. This shows living alone or away from parents or main land. Marriage during this period will not be successful as 7th lord, the bitter enemy is in 6-8 from sani. The job is obtained due to influence or reference by others. It is also possible that the native started to work in the same concern or business her father did as seen from san in the 8th in own sign in the dasamsha chart. If the education she is interested is related to her hobby or some higher education like PhD or the ones where in born talents are required like photography, she will do well. The relationship with her brothers/sisters is so so only. There are some concern and worries due to ill health of her younger brothers/sisters. Sani is neecha in chaturvimshamsha chart which shows that vehicles breakdown suddenly and also the education does not have much consistency. As seen from shodashamsha chart, the native suffers discontentment and is not happy the way things are going on. Muscular cramps and cold diseases are also seen during this period. There are good things related to parents and they are going well. As seen from ekadasamsha, the money flow is restricted but is comfortable. The native is not put to dire poverty as it happens in most of the cases of sani bhukti of sukra dasa.

As of now sani is transiting in simha till 10.09.2009, which is the 10th transit from rasi. Added to this, he is in enemy sign. The native will have professional problems during this time. Loss of job, humiliations and also no promotions are seen during this transit. From 11.09.2009 till the end of this bhukti sani transits in kanya rasi, which is 11th from moon sign. This brings profits, success and confidence to the native.

Rahu is in makara and ketu in kataka at present. The native will have misunderstandings with her friends and also there will be change of place during this transit. She will also become more religious. The relationship with her father improves a lot. Yet, there will be some worries regarding father's health. From 03.11.2009 rahu moves into dhanus and ketu into mithuna in their retrograde motion. There will be financial fluctuations, friction with family members during this time. She is prone to attacks by canines, cats and insects. Also, she will have allergic reactions and food poisoning.

Guru is transiting in own sign dhanus till 10.12.2008. This makes her patient and gives command over her speech. The financial front is good during this transit. From 11.12.2008 to 02.05.2009 guru transits in makara, his debilitation sign. The native will have frictions with her friends and relatives. She becomes adamant also. From 03.05.2009 to 30.07.2009 guru transits in kumbha rasi. This is a favourable transit wherein guru transits over natal position of sukra, the dasa lord. It gives her properties and success in education. Also, she will purchase ornaments, costly dresses and vehicles, In his retrograde motion he retraces into makara from 31.07.2009 to 13.10.2009. Here, the results already described under makara transit repeats. Again, he reenters kumbha rasi from 21.12.2009 to 02.05.2010. This transit relieves from the misunderstandings and gives all sorts of happiness. From 03.05.2010 he transits in meena, his own sign. The native is intelligent and her hobbies flourish well. This is a good time to settle to take up further studies. The native will become more religious during this time.

**Budha Bhukti:06-09-2010 to 07-07-2013 Age:27y6m to 30y5m:**This period causes expansion of interest and life. She is no more feeling alone. Her circle of friends and activities increase. She becomes more talkative unlike in the previous bhukti. Since Budha is the 9th sub lord, she will take up tours to religious places and also follow various religions or cults. She worships various Gods and there is no consistency. The native is extremely intelligent and her hobbies flourish well. It is a good time to take up further studies. Budha is the lagna lord and the 10th lord in the 5th house.

As such, the native will have excellent health and the professional growth is wonderful during this bhukti. She will also put on weight. For small amount of work, she gets great rewards in this bhukti. Since budha is with ketu in the rasi chart, there will be some confusion, perversion of interests to some extent. This is not too much to hamper the progress as the distance between ketu and budha is considerable. There is a bleak possibility of marriage during this bhukti as budha is the 8th lord in navamsha chart. It is also possible that an engagement is broken off. Only the marriages in advanced age are indicated by the 8th lord. Promotions in the job are on the cards as seen from dasamsha chart. Since budha is in own sign in the chaturtamsha chart, the native will have good education and also there will be purchase of ornaments, vehicles during this period. The period is not good for the co-borns of the native, as seen from dreshkana chart. In chaturvimshamsha chart budha is in the kendra and so the native will be successful in those examinations which give promotions and open new avenues in her profession. She is more talkative and derives happiness by talking about her achievements. Frequent stomach upsets and sprains in the feet and hands are also seen. Since budha is in his own sign in ekadasamsha chart in kendra, success during this period is assured in many areas of life. Since the bhukti lords is in 12th from the dasa lord, the effects of the bhukti will be more successful and dasa lord remains neutral. As such, currency notes and religious mentality tend to be less.

Sani transits in kanya at the start of the bhukti. This is a favourable transit in the 11th which brings good gains and success to the native. From 17.11.2011 till the end of bhukti, he is exalted in tula and is the beginning of seven and half years' adverse transit. Since sani is exalted here and also transits over the natal position, it would cause only minor worries for no reason. However, the education is good and also the native will have a good job. There is also possibility of minor problems in lower stomach and head. During this period, nodes transit in dhanus-mithuna, vrischika-vrishabha and tula-mesha. Rahu transits in dhanus and ketu in mithuna at the start of the bhukti. From 03.05.2011 to 14.01.2013 rahu retrogrades into vrischika and ketu into vrisbhavha. From 14.05.2013 till the end of the bhukti, rahu is in tula and ketu is in mesha. All these transits are across moon sign. These transits produce mental worries, lack of sleep and also some amount of strains in relationship. The native should recite the kavacha for rahu and ketu during the entire transit from dhanus to vrischika. These are not horrible transits, but it drains away mental abilities and cause lack of interest in life. Guru's transits in meena to own sign to mesha. Guru transits in meena in own sign at the start of the bhukti. He retrogrades to kumbha from 01.11.2010 to 07.12.2010. Guru reenters meena on 08.12.2010 and leaves meena on 09.05.2011. From 09.05.2011 to 17.05.2012 guru transits in mesha. From 18.05.2012 to 31.05.2013 guru is in vrishabha. From 01.06.2013 till the end of bhukti guru transits in mithuna. In the favourable 5th, meena rasi will considerably reduce the adverse effects of nodes and sani. When he retrogrades into kumbha it would cause some problems to vehicles and properties. Guru's transit in mesha (09.05.2011 to 17.05.2012) is the WORST transit and this will produce disappointments, failures and loans to keep due to some compulsions. The transits in vrisahbsha is good one and it restores the natives prestige and wealth.

**Ketu Bhukti: 07-07-2013 to 06-09-2014 Age: 30y 5m to 31y 6m:** This is the last bhukti of sukra dasa and as such, the effects of sukra will be receding in this bhukti. Ketu in the 4th gives confusion and worries for unknown reasons. The native herself is not able to reason out the causes for worries! It is the state of worries for no reason at all. She should always be in a happy company. Most part of this bhukti goes on uneventful and so boring to the native, particularly so as ketu does not own any cusps at all. Worries related to education, purchase of properties, getting married or repair of the house are there. Since ketu is aspected by sani, there is also stability i.e. the native is able to control her emotional disturbances. Any problem that crops during this bhukti are not prolonged but restricted to the bhukti itself. Since ketu is posited in the star Moola, the native has greater spiritual or religious bent

of mind. The material nature what we saw during the past many years of surka dasa comes down considerably. Ketu in the 5th in the navamsha chart implies that she will be disappointed by a friend. Ketu in the 10th in dasamsha chart shows the frustrations in her professional life. There are no professional problems as such, but the monotony of work bored the native to a large extent. Ketu in kendra in chaturthamsha chart shows some progress in education but the end results will not be up to her expectations. Old relatives, friends and brothers/sisters coming calling in and that makes the native happy. Ketu in the 2nd house in direct aspect by sukra shows that she is prone to accidents caused by some immovable objects like wood pieces or rusted nails which lead to septic condition later on, though the accident goes unnoticed. She should take care to seek medical treatment even for small cuts and wounds. As seen from shodasamsha chart, the native is not happy during this period; she always sees the insufficiency in everything. Ketu in the 8th in shastamsha chart implies diseases related to contents of blood like sugar or salt. Neither parents are happy nor make the native happy. There is some undercurrent of misunderstanding during this bhukti. No shanti is required as there are no serious happy environment. No important decisions should be taken in the last six months of the bhukti i.e. March, 2014 as the time is full of confusion.

During this bhukti, sani transits in tula, his exaltation sign during this bhukti. Since he is exalted, the native can expect benefic results like appreciation of investments. It should be noted that Rahu transits in tula and ketu in mesha till 13.07.2014. Due due affliction of sani, there will be only minimal returns on her investments From 14.07.2014 rahu enters kanya and ketu enters meena rasi. This has a tendency to cause friction in the office tense moments, though the period can not be said to have professional problems. These problems will be over as soon as they come but it gives the native short tempered arguments. Guru transits in mithuna at the start of the bhukti and enters kataka, his exaltation sign on 20.06.2014. The transit in mithuna is the worst of its kind and there will be failures in all fronts till the end of this transit, i.e. 19.06.2014. It is better to recite beeja mantra for guru during this transit. But guru when he enters exalted kataka form 20.06.2014, there is a total change in her life, she will be more religious and also the problems that she faced during mithuna transits have gone.

**Surya dasa: 06-09-2014 to 05-09-2020 Age: 31y6m to37y6m:** This dasa is not as good as the previous sukra dasa. Ravi is the 12th lord and his position in 6th indicates success in war, in profession and wining over enemies. But, these do not come easily and the native should have to struggle for that. That is why it is the the period of whole some success. There will be illness related to blood, stomach, chest muscles and also knees. There will be loans to clear and they will be of course, cleared. The presence of 12th lord in another bad house gives rise to vipareeta raja yoga. This is a good yoga but the success will come only after struggles. The health of the native's father will cause concern. Since ravi is the sub lord of the 10th, there will be good progress in the professional front. Change of living conditions, happiness due to that and also good relationship with father and equal to him like his brothers/sisters, elders, teachers and well wishers is seen. During the previous sukra dasa in two bhuktis marriage was indicated but it is certain to happen during ravi dasa. If she is already married in the bhuktis of sukra dasa, then she can expect excellent marriage happiness and birth of children during this dasa. In the navamsha chart, ravi is in the 7th house in own sign. A long distance transfer is seen as ravi is in the 12th in dasamsha chart being the 3rd lord. Since ravi is the 5th lord in saptamsha chart, the birth of children are seen. The marriage is certain in ravi dasa as there is delay caused by sani being in the 2nd house. There is no education or improvement of knowledge seen during this dasa. One of the brothers/sisters will come to the native for considerable amount of stay on health reasons. During ravi dasa, the bhukti of kuja (25-06-2015 to 31-10-2015) may cause inflammation of a wound in the legs and hospitalisation. Despite all the struggles, tensions of life, the native is satisfied with her

achievements and is contented. The native should take care of low blood pressure. The relationship with with parents, particularly with father is strained a bit. The amount kept in the name of children will flourish well as ravi is exalted in ekadasamsha chart. Budha bhukti (25-06-2018 to 01-05-2019) causes professional and health problems to the native. It is better to do shanti for ravi and kuja in kuja bhukti and for ravi and budha in budha bhukti.

During this dasa, sani transits through tula, vrischika, dhanus and makara. Though tula is the 12th from rasi, there are no side effects during this transit. The transit in vrischika is on the moon sign and this will cause strains in relationship with brothers and sisters and also strains due to over investments in properties. Guru transits through kataka to dhanus. Except for the transit in tula, the other transits are good. Rahu and ketu retrograde from kanya to mithuna and meena to dhanus. The transit of rahu in simha causes severe professional frustrations and also false accusation in the office. Shanti must be done during the transit of rahu in simha. Rahu's transit in kataka causes health problems to the father of the native. The transit of rahu in mithuna predisposes the native to cuts and wounds. During the transit of rahu in mithuna, shanti for rahu should be done.

**Chandra Dasa: 05-09-2020 to 06-09-2030 Age: 37y6m to 47y6m:** Happy events, a jolly good mood, purchase of properties and vehicles are seen during this dasa. For any ventures, easy success is received and also quickly. There will be an influx of monthly income. Yet, all these will be quick to come and quick to go! It is possible at the end of the bhukti, she would be back to the same position as she was at the start of the dasa, if she is carried away. It is wise to save some amount when it rains. The native will be having good income and also as chandra is the 12th lord, there will be selling of some property to acquire another one. Or selling of the old property as the native has acquired a new one. The sale is not due to economic reason. Relationship with husband is good. There are no bitter feelings in the office as it was in the previous dasa. The native enjoys her professional life to the full. She gets good recognition and the work load is less. There will be some problems related to the education regarding the first child. This dasa is not likely to give birth to children. The native is fond of increasing her bank balance and is unwilling to spend on purchases of ornaments or vehicles. She prefers bulk purchase of dress material in reduction sale! This way her stylish mind and financial instinct can be satisfied. There are good events related to her brothers/sisters during this dasa. There are no serious health problems, wounds, injuries or accidents during this dasa. The native is very much religious and contented. She is subjected to frequent stomach upsets and pain in the feet. There is a sense of winning and contentment during this dasa. During rahu bhukti (05-02-2022 to 07-08-2023), there will be some tension in the office. No shanti is required to chandra or any bhukti lords at all.

During this dasa spread over ten years, sani transits from makara to vrischika. The transit in makara and kumbha which are 3rd and 4th help the native to purchase properties. Meena transit causes minor misunderstandings with her children. The transit in in mesha which is in the debilitation sign in the 6th would cause some friction in the office. The native is prone to fracture of jaw bones lower back bone. She may have frequent headaches also. As the position in the 6th is a good transits, it would not cause severe problems. It is better to recite beeja mantras for sani during this transit. Guru transits through dhanus to tula. The transit of guru in makara causes some health problems to the brothers/sisters of the native and transit in mesha causes some minor health problems to the native. The transit in mithuna halts the progress in life. During this period, it is good to donate food (rice and wheat) to poor people. Rest of the transit of guru are good. Rahu transits from mithuna to vrischika in anti clock fashion. ketu transits in the sign opposite to rahu (always). When rahu is transiting in mithuna, the native is prone to minor wounds and cuts. Shanti for rahu must be done during the transit of mithuna. When rahu transits in kumbha, the native will acquire the properties early.

**Mangala Dasa: 06-09-2030 to 06-09-2037 Age: 47y6m to 54y6m:** Unlike the previous chandra dasa, this is the period of activities, turbulence. The relationship with brothers/sisters and friends improves. The native is more courageous, adamant and also quarrelsome. There would be some marriage related problems. Ill health and accidents are common. Though there is no danger to life, there will be element of suffering. Since it is the periods of 8th lord, shanti for kuja must be done frequently, i.e. once in a year. Husband's as well as second child's health also causes concern. In this dasa, bhukti of sani (26-01-2033 to 07-03-2034 ) is the worst period and shanti for kuja and sani has to be done during this bhukti. This bhukti has all the potency to damage the marital life of the native. The domestic problems adverse effect the profession and also financial condition as well as her health. It should also be noted that kuja is the 4th lord in the 7th house. This shows that the native will acquire some properties (mostly land properties, lawns, shares in agricultural or fertilizer ventures. It should be viewed carefully, as acquiring properties in husband's name is quite common in India which means the husband will impress upon / enforce the wife to shell off her money! But in a society like US, it is viewed with suspicion. In case the relationship with the husband is bad (which would normally be) but beyond manageable limits, then restraints are required. It is also possible that Indians remain so for ever and do not mind giving her property (ancestral or earned) to the husband so that he can put a house or a shop there! Under any circumstances, the native should not start any business - on own or with partnership during this dasa. During this period there will be good promotions in the profession which can be said to be the highest possible. The relationship with brothers / sisters and friends is excellent. There are good lot of activities in the professional front which build up tensions. In saptamsha chart, kuja is the lagna lord in the 4th neecha which means the progress of children is good but there are also some element of strained relationship. She may take to some physical activities as hobby. Monthly income or help in day to day needs are seen from brothers/sisters and friends. At times the native will think of quitting the profession as 8th lord in the astamsha chart is in the 10th house. Despite tensions, anxieties and rifts in familial life, the native derives much satisfaction of life. She enjoys the activities but also there are side effects that have effect of her personal life and health. It is better to do some kind of meditation and peruse a hobby that takes off the tensions of life.

**Rahu Dasa: 06-09-2037 to 06-09-2055 Age: 54y6m to 72y6m:** Professional dissatisfaction and also taking to electronic media like blogs, cams or ham radio as hobbies are seen during this dasa. She is prone to accidents involving machines, electricity which are serious ones make attending the office painful. Every day of this rahu dasa, till her natural retirement, she thinks of quitting the job. The native can not completely quite the job as budha aspects him. As rahu is in his own star, there will not be any serious accidents at all. But rahu dasa is full of ebbs and tides. Whenever there are good things also, the native is not happy. It may be recalled that she had ketu dasa in her early childhood and it was a dull period. Similarly, rahu dasa is also a dull period but it also caused short tempered arguments and arrogant behaviour. Rahu being 8th lord could have ended life in any other chart but not so in this particular case as he is in own star, aspected by sign lord. The relationship with children is good but the native objects to all the things the good children do! The native is bent upon making her life and well as her close people hell by causing misunderstanding. She should Daily she should recite the beej mantra for rahu. it is better to do shanti for rahu once in a year. The bhukti of budha (18-08-2045 to 07-03-2048) and guru (19-05-2040 to 12-10-2042) are the worst periods in this dasa. Shanti for rahu and respective bhukti lords must be done during this time, as these periods cause health problems.

**Guru Dasa: 06-09-2055 to 06-09-2071 Age: 72y6m to 88y6m:** In the previous dasa, there was some mental irritation and the nature was to find fault with one and all. The life particularly towards end of rahu dasa became a burden to all! But suddenly at the dawn of guru dasa, the character of the native will take a change for good.

She is understanding, cooperative, devotional and courageous. She is happy to live with one and all. Happy days have returned in the family. The husband is responsible for this change. He is the star lord over 2nd house, 6th and 10th house. The native has still some arrogant behaviour left behind. Ill health, expansion of family by marriage of children and birth of grand children. The native is regarded as a respectable old person and is not treated with bitterness and resentment as it was in the previous dasa of rahu.

**Shani Dasa: 06-09-2071 to 05-09-2090 Age: 88y6m to 107y6m:**  
This dasa is not fully experienced. And also no important incidents are seen during this period, other than ill health, expansion of family and religiousness.
