Sir you said," I am out of work from 20 . Do I have luck in business? If yes, then when, should I take it as my profession? What the source for income, I am out of work, I sold my business in . What kind of business I going to have in future? WHEN? "

In this chart, Budha is combust and neecha and the debilitation is cancelled due to shukra in Kendra from chandra. Guru is exalted and retrograde. Sani is retrograde. You will two bhava related charts in your case. One is the chart where the mid points are mapped. Due to this, shukra owns only 12th house, Budha owns 1, 2 and 5th houses, Kuja owns 6th house only, while guru owns 7th, 8th and 11th houses. In the bhava chakra, guru in 3rd; shani, rahu in 6th; kuja in 7th; ravi and budha in 10th, shukra in 11th and ketu in 12th.

During May 2009, you were in the end of shani dasa. Shani own good houses 9th and 10th but is retrograde in 6th. This has robbed off the yoga effect. These things naturally happen to all but to some the effect is more magnified. In your chase the last bhukti lord guru is the owner of 8th cusp.

In this chart, guru is the 11th lord and he is in the 3rd house, exalted and retrograde. Shukra, the significator of wealth is in 11th, of course it is good but shukra is the 12th lord also. As such, you can not expect to be very rich. If you get more money, you have a tendency to put it back in business until the business runs in losses. Whenever there is profit, you tend to spend on travels, tours and friends. Your friends (or partners) make good amount from you while you will be left to mend hard work. 11th lord sub lord guru in the 3rd, shows that profits go to friends and acquiesces. As guru aspects 11th from here, whatever they please to give you, will become your profit! In other words, this is not a chart where

business suit you well. However, as shukra is in 11th house, you can indulge in moderate investments in part time business, holding a safe rope of employment under somebody. You should not embark on full time business. Partnership always lands you in trouble, guru and budha are in 6/8 in bhava chakra.

The next house to be examined is the house of money (currency notes, source of income). 2nd house shows nitya sampattu (daily wealth) which is used up to make a living and also to save and make wealth after some time. 2nd lord chandra is a fast moving planet in the 4th house. This shows income that comes very fast. Chandra as 2nd lord or 11th lord is not desirable as the amount that comes is not significantly large. There is no consistency also. 2nd lord in 4th shows, all your earnings will go towards mother, motherland and happiness. You will spend it all easily. If you save, the same can be used for purchase of properties, i.e. dwelling house. 2nd sub lord ravi in the 10th house. This shows you have a hard working nature and do not mind spending out of your pocket for conducting business.

The source of income is office, status in society etc., This is examined using 10th house. In this house, you have budha and ravi which show that you have greatest talent in business. You know the talking and any business that involves paper work, talking, communication, interaction with intellectuals will suit you. 10th lord shani in 6th shows a job which involves subordinates, lot of people. Slow development is seen in the profession. It should be noted here that 10th lord shani does not aspect 2nd house. 10th sub lord is budha i the 10th which confirms, you have great amount

of business talents. You are very good at commission agency, publications, law, administration, eateries, hospitality, life saving drugs, photographic and x ray related things and drugs for heart problems. Despite all the talents, you have to work for somebody to make them have profits so that you get monthly salary. Does not the talented painter work for a dull headed but rich supporter of arts?

The other source of income is by service (working in somebody's office). Kuja is the 6th lord who aspects 2nd house, the source of income. This means, your source of monthly income is from service under others. Engineering, communication, automobiles, real estate, chemicals and sports goods are your area of service. This does not mean you should start business of these! You should work in these areas for a salary. I am aware you do not like to work under others due to shani and rahu in the 6th house. As 6th sub lord is in 6th, you will take these friction in the office to your heart and you can manage.

Also shukra is in 12th house, aspected by shani 11th lord. This shows fair amount of richness, that could get you, if you were in employment under someone. Shani in as 11th lord and guru lagna lord retrograde are draw backs, as business gives good transactions but less profits.
