Report Jyestalakshmi Item #: A15 in r/o Sri

		JuR 25:24	Mrg
			Ke 00:45 P
Ra 00:45	USL	Ayan. -23:13:09 Lahiri	
Su 20:15	Psh	As 01:05	Sa 14:30 Swa
Ve 14:07	Psh		Ma 15:42 Swa
Me 14:03	Psh		
Mo 11:15	Mul		

You are born in star-Moola - 4 pada, moon sign in Hindu system being Sagittarius. Just in case, you wish to check this casting with the birth chart he may be having, his Sun sign (in western system) is Capricorn. Ascendant rising at the time is Scorpio which is in 12/2 relationship with Moon sign.

In the analysis, you may notice that I have not used mathematics (which you find in most of the machine made charts) in deciding the strength or weakness of a planet a or house and some of the divisional charts like trimshamsha, khavedamsha etc., as they are more misleading. The yogas have not been mentioned here, as they are more poetical in nature and the same judgment can be achieved by judgment of individual houses. You may also find more mathematics in making chart than in judgment of horoscope. Generally, strength of planets (bala) is given more importance by many

astrologers. But in the chart I have made or in the analysis, such 'bala' is missing rather is made abala! I do not believe any planet is capable of doing "all good" because he has gained so many points in strength, being MOST POWERFUL PLANET in the chart! My mechanic can not treat my disease, while my doctor can not repair my car, though both of them are distinguished!

Mercury, Moon and Venus have rapt conjunction with each other and all these planets are in combustion in sun, the 10th lord. Jupiter is retrograde. Saturn is exalted and has rapt conjunction with mars, another malefic. In the cuspal chart, Moon, mercury, Venus and sun are in 2nd, rahu in 3rd, Jupiter in 8th and ketu in 9th; Saturn and mars are in 12th. Overall, the position of planets do not give a great picture. The native has to be careful with money as he is likely to be a spend thrift or loses the money in a foreign land or in import, export business. He will have to struggle a lot to come up in life. And again not to come down again, he has to work hard. Sporting personality (not accepting defeat and backing out) has further made him try all other ways to do business. He should avoid gambling, chance games and dubious partners. He derives more pleasure serving than being served and from giving than receiving. He has a tendency to exert more will power on his senses, just to prove his is the master! Most distinguished character is that he is laughing and smiling and has all courage, when he fails also. He does not blame others for his failures. He is very strict (boasting cruelty), lives away from his main relatives, has delicate health and all problems were in his infancy and early childhood. It is bit difficult to live with this man (as wife, son or father or whatever), as he is a stick-in-the-mud, in his believes. He is more of a military general than a room mate, short tempered. He is a person cut off from his relatives. Is always caught in a mess and money never stays in his hand, has difficulty in repaying debts. This situation has become worse as the ascendant lord mars joins another power malefic, Saturn in the 12th.

It does not mean, he will not have money at all. All the benefics - Moon, Venus, Mercury in 2nd house give lot of money for his enjoyment, conducting business etc., As Mercury is 8th lord, as times, he has to borrow to lead a dignified life, as the owner of a company. As all these planets are combust in sun, the 10th lord, he will not know, what is the limit for investments. All the extra coins he will invest and invest. Rahu in 3rd shows, you have great feat hidden inside. You has communication problems with his friends and relatives. He gets maddening rage of anger to overcome this fear, he is not able to make out the reason. Relationship with mother was not good but he likes his father. Most disadvantageous thing in the chart is the position of Jupiter in the WORST 8th. God does not listen

to his prayers easily, does not try to help him. There is another angle to this. The native himself will refuse to go to God, he is anti God, does not believe in remedial measures, does not take elders or well wishers advice. He refused to recognise the problems and if and when he recognises, does not try to solve them. NO MATTER WHETHER HE BELIEVES IN GOD OR NOT, HE HAS TO READ ANY RELIGIOUS BOOKS OF HIS CHOICE, EVERY DAY. HIS ARGUMENTS, ARROGANCE OR DISLIKES TO GOD ("He helps everybody, not me") be kept aside. He should go the temple of God - Church, Mosque

or whatever be it and do MANUAL SERVICE there. It is also a good idea to feed destitute animals and care for them. Ketu in 9th makes him strangely religious. His religious believes are unconventional like - "there are gods and devils, but through our mind, we have created them". In India, this causes one to follow a modern cult guru, worship of tribal gods. Above description is given to help you understand the purpose of your life, your weakness and strength, as a brief introduction.

Now, let us examine the profitability in the chart. 11th lord Mercury is in 2nd but is combust in 10th lord Sun. He is aspected by Saturn (please see moon sign chart). The 11th cusp is aspected by Rahu, another malefic. Money goes into business again and again. Like my father, who drained all his savings and earning got from a government job, on developing some agricultural land (which caused heavy losses), he goes on and on, pushing money into business. So, all his profits, get sucked into business and he will stop this process only when he has no money to put into business. Running office also is a matter of dignity to him. He does not even economise his office spending. Rahu's aspect on 11th is even more bad, it causes day light robbery, accidents, being cheated by somebody taking advantage of your weakness. To sum it all, this is not a chart of a business person. He should not have started this business in the first place.

D11 Ekadashamsha 1/11

	11Pis56	11Ari56	11Tau56	11Gem56
	Sa Su Ma 7	8	9	10
11Cap56	6			Ra 11
11Aqu56	Me Ve Ke 5			12
	Mo JuR 4	3	2	As 1
	11Sag56	11Sco56	11Lib56	11Vir56

Ekadashamsha chart shows you will have a house, vehicles etc., and the life is not too bad, but as chandra is in 6th to 11th house, this chart also does not support any business. As a matter of fact, rahu in 11th shows opposite of profits. There may be losses due to enemy action, cheatings etc.,

Whatever the way you look at this chart, this is NOT a business man's chart, but a chart of a man who dabbles his hand in some business and gets his hand burnt.

If you should not do any business, how one gets monthly income or small amount of properties (a house, a car etc.)?. There are many planets in the 2nd house, indicating income from various sources. Chandra is the 9th lord in 2nd house,

a benefic, who gives quick income, it is easy by consultation, advice (pooja, service in a church), member of advisory counsel, treating patients. Income from accumulated wealth and ancestral wealth by means of interest, divined etc., income from wife, income from job. Sun being the 10th lord, in whom all the other planets are combust, the income from your job (under others, not business) is the main source of income. You have income from a job related to surgery, medicine, photography, heart related drugs or goldsmith. As two malefics are in the 11th, it takes a long time to become rich.

Summary: This is not at all a businessman's chart. No success is seen in business. There is good income and property under employment of somebody.

HARIHI OM

IMPORTANT

CEO of Pharmaceutical Company-which is having financial difficulties - Experiencing difficulties in raising monies to take the company forward.

I have developed a beneficial product that will help millions of people. We need guidance.

who can financially help immediately.

As we see in detailed analysis, there is no scope for doing any business. In Rahu dasha, Venus bhukti 24-08-2009 24-08-2012 is going on now. Rahu and Venus are in 12/2 with each other. So are Sun and Moon. That is to say, no break through can be possible till 05.02.2016, still a long way to go.

It is also possible, that he will quit his job, so that he can concentrate on the company. That is another disaster in store. Saturn transiting in the 10th from moon sign causes deep professional frustration ("I am a founder of such a great medicine, own a company, why should I listen to dictates of such low man?"). There is also over estimation of capabilities. Under any circumstances, he should NOT quit the job which has stable income. Many people do such things when Saturn transits in 10th from moon sign.

It is better to give the know-how to somebody for a certain amount or percentage in profit. Let the new board, do whatever they want. He should better be a scientist who has found medicine than a market manger.

Remedial measures: Most disadvantageous thing in the chart is the position of Jupiter in the WORST 8th. God does not listen to his prayers easily, does not try to help him. There is another angle to this. The native himself will refuse to go to God, he is anti God, does not believe in remedial measures, does not take elders or well wishers advice. He refused to recognise the problems and if and when he recognises, does not try to solve them. NO MATTER WHETHER HE BELIEVES IN GOD OR NOT, HE HAS TO READ ANY RELIGIOUS BOOKS OF HIS CHOICE, EVERY DAY. HIS ARGUMENTS, ARROGANCE OR DISLIKES TO GOD ("He helps everybody, not me") be kept aside. He should go the temple of God - Church, Mosque or whatever be it and do MANUAL SERVICE there. It is also a good idea to feed destitute animals and care for them. At present, there are professional (job related) problems also which causes humiliation and severe frustration. It is better to do shanti for shani and recite shani kavacha everyday.

Gem stones: Hindu astrology stipulates prescription of gem stone for 'anukoola graha' (beneficial planet). No gem stone is found suitable as all the planets are having a tinge of bad influence also.
