Sir, you said," I have 2 options in my career right now. I am currently doing MTech in metallurgical engg in Mumbai. I have got offer of good job in Delhi and I have got admission for PhD in abroad university in Canada which will take around 4 years to complete. During PhD I will be getting scholarship so financially the condition will be more or less equal in PhD and in job. But I am very much confused what to choose between these 2 options. I am unable to decide what will be better for me. Should I opt for a job and settle early in life or should I go for PhD and will I complete it well and get better job after 4 years abroad and in future? Both PhD and job will start around august-sept this year".

ayanamsha. As such, the chart produced may not tally with any already existing man or machine made charts. There may be some difference in balance of dasa, consequently in the dasa/bhukti starting and ending dates, position of planets etc., These modifications have been made to achieve greater accuracy. The native is born in Punarvasu - 1pada, i.e. in mithuna rasi. The lagna rising at the moment of birth is dhanus which is exactly opposite of the moon sign. As such, the native has friendly competition between his mind and body. For everything body says/wants mind will not readily co operate. The result of such influence is that he would always find it difficult to execute his plans. In this chart budha, guru and sukra are combust in the 3rd lord ravi. There is a danger from this. His talents, his resources, his partnership etc., will help his friends and relatives than the native himself. In a combined study, the partner or friends gets more marks than the native. Ravi's neechatwa is cancelled due to association with sani exalted and also sukra in own sign. In this chart guru, rahu and ketu are in their own stars. The lagna lord is posited in the 12th house and not in the 11th as seen from bhava chakra. This makes the native stay abroad for a long long time. The native's life is successful one as many planets are in the 11th house. In lagna we have ketu and kuja the 12th lord and a node. Due to this the native is full of activities and also consequent tensions. He looks healthy and handsome. Chandra should have made the native very fat but due to the aspect of sani on lagna, the

The 2nd, 4th, 5th or 9th rules the field of education. 2nd house governs the basic education, 4th academic (common education) while 5th and 9th govern higher education like Ph.D. 2nd lord sani in the 11th shows that the primary education of the native was successful, but it was an ordinary one. There were slow developments and native did not know his abilities. He was always withdrawn, thinking and reclusive. The 4th lord guru is posited in the 12th but from here he aspects own sign and house. As such, the education like graduation and scholastic activities are better than in primary education. It should be noted here that this education has been responsible to take the native abroad. 5th lord kuja is also the 12th lord who prefers more to be 5th lord ore. This promises excellent higher education like Ph.D. 9th lord Ravi in the 11th whose neechatwa is cancelled by sani shows that the native has all scopes for further education. Buddha and ketu happen to be the sub lords of 5th and 9th houses. The Ph.D is obtained in the fields of minute research like Chemistry, Metallurgy, ions, radiations, super conductors etc., The PhD and further subjects will be more of minute nature than they seem. The chaturvimshamsha chart shows that Ph.D is of course obtained in the field of lower (inorganic chemistry) and at that time but with great difficulty as sani is the 9th lord here.

Now, the question comes whether such education will be beneficial to the native. Whether such costly education will bring about a happy and prosperous profession. The 10th lord Buddha is well posited in the 11th which means the further education will benefit the native. Since Buddha is also 7th lord, good education in this case, bring about a good marriage. For chara rasis, the 7th (in this case, budha) becomes badaka (trouble causing planet). As such, the profession of the native is having slight obstacles. The education the native gets does not go waste like under employment etc., The 9th sub lord ketu in lagna confirms that the native is born to achieve high educational and consequently professional success. The 10th sub lord guru in the 12th shows somewhat slow development in his profession and also changes in the profession (in the same lines but not frequent changes). It shows that the native will live abroad for a considerable amount of time. It should be noted here that guru in own star makes the native's stay a happy and respectable one.

For every move, the time scale is important as it has to co operate. Now the native is having the dasa of Sani dasa -Kuja bhukti from 16-10-2007 to 24-11-2008. This period and also next bhukti of sani dasa are in no

way concerned with job/profession and earnings. As seen from the dasamsha chart, the professional life begins in guru bhukti, 01-10-2011 to 13-04-2014. Since, it is the last bhukti of sani dasa, the job opening will be a lackluster affair which the native does not like at all. He would think, his education has gone waste. Also, there will be considerable confusion Nov. 2013 to the end of the dasa i.e. 13-04-2014 on what job he has to take up. But the coming dasa of budha from 13-04-2014 to 13-04-2031 is the golden period of his professional life - he gets a job of his dreams during this time.

Does it mean everything is excellent in his higher studies? Not at all, it is not an easy job. The transit of sani in ardashama position from 11.09.2009 to 05.10.2009; from 14.01.2010 to 31.05.2010; from 14.09.2010 to 18.10.2010; from 27.01.2011 to 13.06.2011; from 27.09.2011 to 31.10.2011 and from 15.05.2012 to 25.06.2012 causes a set back to education. Also, Sani dasa -Rahu bhukti from 24-11-

2008 to 01-10-2011 causes inclination towards sense objects and as such distraction from studies. (whether he is in job or pursues further studies, does not count). This period causes opposition, outward and careless behaviour on the part of the native. It should not, repeat should not fall in love, infatuation of any girl and should concentrate only on his studies. Also, he should tighten his impulses and desires like picnics, movies, eating away, postponing etc., that will land him in trouble. As far as possible, he should keep his partners/friends at bay. He should make it alone than so called combined studies with anybody. As the transit sani aspects the natal position, there may be some financial strains and strained relationship with brothers/ sisters and friends.

**Remedial measures:** Kuja is posited in lagna, rahu aspects the dasanatha, and guru aspects the 4th house. As such, the ventures towards higher education will be successful. When the transit of sani happens to be in kataka, shanti for sani should be done with beeja mantra japas. It is also desirable that the native recites beeja mantras for sani, at least 18 times a day. Distraction and financial problems could be there towards the completion of the course. He should watch out for such distractions. Obviously, from this chart, the native is heading for higher education and the employment will be overseas due to this educational qualification. He should be prudent in spending that he will not land in financial crunch. He and his books should only be the principle, no close friendship with anybody is not called for.
