rising at the time of birth is vrishabha. In this chart, shani is neecha and retrograde while budha is combust. The debilitation of shani is cancelled due to own sign aspect of kuja. Lagna lord shukra is in own sign and house in 6th. Bhava chakra is the same as rasi chakra.

You have a comfortable life and also prone to diseases that are hereditary in nature. Amount of health is more than ill health. You have luxuries life towards middle and old age. You are good to look at but with some what dark skin and prominent jaws. You are shy and

also showman! Like a successful actor who is shy in the interviews! Financial position is good, Purchase of properties, education was not up to the mark. You are always having some loan or office problem (friendly competition) due to two benefics becoming weak in 6th. Similarly, you are going to win all these difficulties as two benefics are in 6th! That means you are going to fight and win these things. Wife is not so good to look at as you are. She is arrogant less co operative. You have good longevity. Your father was like mother, he played the dual role of mother and father. Mother had some health problem always. You have lot of job dissatisfaction and also there is always slow development in professional front. Now, let us have a close look at progeny. Budha the 5th lord in 5th in own sign and house guarantees good children. It shows you have good hobbies and also you are very caring father. You are fond of little children, little animals more than any woman! Reading is one of your favourite hobbies. You will have large number of children - six in all! It need not be all your children. The list includes the children you like, you pet dog, the planets you fondly water. That is to say, to eight lives, you will play the role of a father. There are no disappointments at all due to children. There are malefics also in the 5th house, kuja and ravi. There will also be generation gap. Guru the significator is in the 6th, which shows, practically, you will have less number of children. Maximum number of children you can have is two.

Saptamsha chart is considered for analysis of children. In this chart chandra the 5th lord aspecting his own house should have given you a daughter as the first issue. But with guru whose neechatwa is cancelled, you are blessed with a son, who is shy, polite (more of feminine characters). Next issue is indicated by 7th house and there is malefic ketu in the house, budha stays indifferently in the 3rd house. That means the possibility of a second child is very less. The dasha of guru is about to be over on 16-05-2010. With this the possibility of child birth comes to an end. Also you will not be much attracted towards little ones later on. Yet, there will be some longing for the second child until

shani leaves kanya rasi i.e. till 15-May-12. Next dasha of shani restricts the family, that is to say, there will not be any chance of birth of another issue. With the end of guru dasha that ran for last 16 years - your prolonged problems (they were not neck breaking) but it had a share of ill health, loans, service problems, some properties, marriage, child birth, hospitalisation and losses comes to an end.

Your wife is born in the star Jesta star 3rd pada, rasi being vrischika. Lagna is tula which shows acquisition of properties and good enjoyment of

life. She likes to be a modern woman, is good in English and foreign languages. There is more western influence on her. She is a nagging woman, always bent upon teaching her husband all good manners (according to her). She thinks that her husband is old fashioned or a villager. She has lot of wealth and she is adamant in her arguments. Her family life is good, has good amount of income. She always finds fault with her brothers and sisters. She is happy in various ways - many things make her happy- going round the market place, shopping, walking across paddy fields, eating raw vegetables etc., Guru is in own sign in the 6th, she does not have any enmity with any one. She is always prone to cuts and wounds. She is not a professional person. Even if she is employed, you can not expect great future in that. She has good communication skills, as budhaditya yoga is formed in the 3rd house and uses her communication skills to maximum extent. It is either that she does not have a job or that there is no stability in her job as shani is in the 10th house. As shani is yoga karaka (just like in your chart) powerful in the 10th Kendra, she gets all the wealth but slowly in life.

Now, let us take a close look at the house of progeny. Shani the 5th lord in Kendra restricts the number of issues. Normally, these people have one or two issues only. She does not like kids, though she is not averse to them, shani in 6th from 5th house. Guru in own house and sign has blessed a son to this native. The second issue is denoted as the brother / sister of the first one, represented by 7th house. The lord is in worst 8th and ketu is in the 7th. She has fears that the second one will destroy her health, relationship with husband and also cause financial strains and she is justified in that. As 7th lord is in 8th, second child is ruled out in this chart. In saptamsha chart, 7th house in a female chart rules the first child. Ravi the lord in the 2nd house, 8th to 7th house shows only one child.

Shukra dasa Ketu bhukti, the last one of this dasa runs from 26-04-2010 to 26-06-2011. As shukra and ketu are in 6/8 relationship, this period will cause problems related to husband, finance, marriage strains and problems related to second child. Ravi dasa that follows from 26.06.2011 is NOT good for the second child.

HARIHI OM

IMPORTANT

1

So I would like ask you whether we cant have anymore children $\sigma\mu\sigma\tau\tau$ in our horoscope.

Summary: No child birth is seen in your chart and in your wife's chart, it is seen the birth of second child will put strains on your wife, particularly health. It is suggested NOT to opt for the second child at all.

3. If you want to say something (experience advice) in your mind please tell us.

As seen from your chart, Shani is yoga karaka and so you will have good progress in all walks of life. You will have good properties, promotions, religious functions etc., for during next 19 years. Also, you should try to go abroad. Shani is not altogether a benefic here - his neechatwa is successfully cancelled. Neecha bhanga raja yoga is not as good as any other raja yoga. All these good things do not come on a plate, you have to struggle and achieve them. Shani dasa for next 19 years from 16-05-2010 can be said as silver period, though not a golden period of your life. It is better

you recite any sloka for chamundi, kali or even rahu till your retirement to reduced professional problems and frustrations. You can wear emerald of 3-4 carets made in gold on any figner (not necessary little finger) of right hand throughout life. Emerald is dark green opaque stone, take care you do not purchase onyx a duplicate shinny green transparent stone!

In your wife's chart, Shukra dasha Ketu bhukti, the last one of this dasa runs from 26-04-2010 to 26-06-2011. As shukra and ketu are in 6/8, this is a problematic period. No investments be made and she should be looked after with care. It is better to do shani for shukra and ketu now and she should recite kavachas for shukra and ketu till 26.06.2011. These and other navagraha mantras are available in the site: www.astrovidya.com. Your wife's premonition not to have a second child is justified. Not only that, she has the ability to foresee the things, though she is not able to explain. Always take your wife's 'gut feeling' into account whenever you have to decide anything in life! She can learn palmistry, face reading etc., and not astrology, as kuja is in the 8th! As shani is yoga karaka (as in your chart), she will get all the richness in life but slowly. She does not have a profession or there is no great future in her job. It is better to recite kuja kavacha one a day and to visit Ganesh temple frequently to avoid cuts, wounds and rifts in the family. No stone is found suitable in this case.

In both the charts, shani is yoga karaka, as such shiva pooja (conducting either in the house or in temple like a simple pooja or rudrabhisheka), fasting on Saturdays will increase luck and general prosperity.
