Shri is born in the star Vishakha, tula rasi. Lagna rising at the time of birth is kanya. In this chart, none of the planets are in own houses, exaltation or debilitation. Budha is very close to the beginning of the sign, tula, just 12" away from the border line. In bhava chakra, Rahu and Ravi are in lagna; Chandra, Kuja and Budha are in 2nd; guru is in 3rd, Shani is in 4th; Ketu is in 7th while Shukra is in 12th houses.

In the analysis, you may notice that I have not used mathematics (which you find in most of the machine made charts) in deciding the strength or weakness of a planet a or house and some of the divisional charts like trimshamsha, khavedamsha etc., as they are more misleading. The yogas have not been mentioned here, as they are more poetical in nature and the same judgment can be

achieved by judgment of individual houses. You may also find more mathematics in making chart than in judgment of horoscope. Generally, strength of planets (bala) is given more importance by many astrologers. But in the chart I have made or in the analysis, such 'bala' is missing rather is made abala! I do not believe any planet is capable of doing "all good" because he has gained so many points in strength, being MOST POWERFUL PLANET in the chart! My mechanic can not treat my disease, while my doctor can not repair my car, though both of them are distinguished!

Lack of charisma, no support of father, teachers and no god-fathers (he is a self made man). A willing person who sacrifices for others, does not compete. Woman like character - not dare enough, easily defeated and also at the same time, over possessive nature. Has good amount of money and also support from various relatives and friends. Not a wise person in spending - he either spends a lot or will be busy saving to the extent, he does not want to spend - there is no consistency. He has some ancestral wealth from which he gets monthly income. Also, he will be able to add to the existing wealth and pass on to next generation. He has some additional income from deposits. He can do some business also, if he has some partner. Income from various sources.

There is monetary support from his brothers, sisters and friends. Also, these people will always take part in his family life - normally they stay together or nearby. This has given the native good support. Occasionally, there will be some minor friction with them due to wife - Ketu aspects the 3rd house from 7th. Has good lot of friends, has moral courage and he mingles with one and all, particularly when traveling. He is not afraid of strangers or any incident while traveling.

Education was not up to the mark, there was mother's health. The happiness from his mother is very much less. There is very much delay in acquisition of properties. The properties are acquired in the name of or because of or combined with brothers or relatives. Has good children, limited issues, they have good happiness and good education. Native is pessimistic and always finds a reason or other to be unhappy. Not totally a happy married life, wife has great influence on him. He is happy, that he has a good wife - religious, supportive, kind, wise and patient. He is not happy with his wife as she is not much of a good looking person. Her background (he thinks) is not as good as his, based on her social, economic and cast based nature. He is not angry with his wife, but the wife is! Has good

amount of life span.

Professional life is not up to the mark. Has good job in the fields of accounts, journalism, trade etc., (represented by Budha). He gets good income from his salary. He has good enjoyment of life, has artistic things, luxuries amount him - Shukra in 12th.

Now, let us have a detailed look at his health issue. Kanya lagna person is given to confusion, undesirable meddling in small things - leaving important things. He is busy in kitchen giving instructions to his wife or any womenfolk. This causes extra tension in his life, he becomes touchy. He is an idealistic person, so find it difficult to go along with others - particularly in his job. His weak points in the body are: legs and feet. Any

disease that comes to him, takes considerable time to go away. Generally, he has good health - 6th lord Shani aspects his own sign and house. He is prone to diabetes or such diseases that cause imbalance in blood and it is due to his lineage. Since Shani is the 5th lord also, the curing begins at the same time. That is to say, curing also takes a long time - the disease goes on for a long time, but is amenable to control. It never goes totally out of control. Like lower back pain, it remains there, not causing any damage to life or life span, but making life a bit discomfort.

In shastyamsha chart vrischika lagna rises aspected by Shani and Shukra. Benefic guru is also there in the lagna. The 6th lord Kuja is in 5th, indicting that the diseases will not go totally out of control. Skin diseases, worries, mental irritability, confusion (chanchalya), desire to enjoy life, due to curiosity (chopalata - eating, drinking or taking many examinations or reading all relevant or irrelevant books), weakness of the nerves i.e. no retention power in the brain. That means, there is some mind or nerve related problems also. Budha in mesha in this chart, shows head. It should be noted there that Budha is close to the beginning of the sign and such planets become weak. They cause problems, in case of Budha it is - mental problems, nervous weakness, loss of discretion (viveka) and only bookish knowledge.

Let us revert to bhava chakra where Budha is a benefic lagna and 10th lord in 2nd house. Budha Dasha (01-01-1974 to 01-01-1993) operated till his age of 33 years. This period gave the native excellent income, professional advantage and also a desire to do better things in life. Even in his education era, he was tired due to over work. The effect of such Budha are being felt now. He has the problems mentioned above in Budha Dasha also, but it was not much prominent, Budha is benefic lord but weak.

D6 Disease

Now, the native is running Ketu Dasha from 01.01.2010. In shastyamsha chart, Ketu aspects the 6th house and Budha. Generally, all mental worries are caused in Ketu Dasha, even for those who do not have any mental problems! For a healthy man, it could be a memory failure, unreasonable fears, restlessness, superstition and running from all swamis or unreasonable criticism of faith, culture or social norms. Whatever he does, he is not clear at all. In this particular chart, Budha being at the junction of signs is not strong and he is pre-disposed to mental irritation. Ketu in 2nd causes worries related to family, mind (i.e. fear of loosing mental balance) and finance. Stammering, friction with mother or misunderstandings are also possible. At present he is undergoing the worst period Ketu of Ketu Dasha- Shukra Bhukti 30-05-2010 to 30-07-2011, both Ketu and Shukra are in 6/8. This causes strained relationship with wife, and with parents and higher authorities. Failures in many walks of life, not being religious, financial problems and worries related to this. There will also be huge amount of expenditure.

The chart shows a person who is very sensitive but obviously he can not a mental patient. He may require some support and timely guidance. He may feel to much strain in life due to wear and tear. Two more i.e. Chandra Bhukti 05-12-2011 to 05-07-2012 and Budha Bhukti 05-01-2016 to 01-01-2017 also cause similar problems. From next Dasha of Shukra 01-01-2017, there will not more be problems.

Remedial measures: He should recite kavacha for Ketu and Shukra till the end of Shukra Bhukti, 30.07.2011, in the morning. Also, shanti for Ketu and Shukra MUST be done. Similarly, shanti for Ketu and relevant Bhukti lords MUST be done during Chandra and Budha Bhuktis. During this period he should recite kavacha for Ketu and relevant Bhukti lords. He should develop strong will power and careless attitude. Daily reading of Vishnu Sukta, Vishnu sahastra nama or Srimadbhagavadgeet will be of great help in this case.

No gem stones are found suitable in this chart, as all the planets are having one or the other draw back.
